Glade

Glade for GTK-2.x

Glade for GTK-2.x is not available in current *Debian* / *Ubuntu* distributions (since *Glade* 3.10 only GTK-3.0 is supported). But we can build it from source, see here.

So, how to build *Glade* 3.8 for GTK 2.24 ?

```
git clone https://gitlab.gnome.org/GNOME/glade.git
cd glade && git checkout GLADE_3_8_6 # last version for GTK-2.x
./autogen.sh
./configure
make
sudo make install
sudo ldconfig
```
