Boot Loader

Grub 1

Change the boot menu (and kernel parameters) in `/boot/grub/grub.cfg`, then run command

```
update-grub
```

Reinstallation of boot loader in the MBR can be forced by:

```
grub-install --recheck /dev/sda
```

Grub 2

Change kernel parameters in `/etc/default/grub`, then run command `update-grub`.[1] Verify after reboot with:

```
cat /proc/cmdline
```

1)
Which is a stub for: `grub2-mkconfig -o /boot/grub/grub.cfg`.
